

CONFERENCE DESCRIPTION

This one-day conference is devoted to educating health care professionals on the modern aspects of sickle cell disease pathophysiology and its complications, precision medicine, and treatment. The conference is targeted to advance practice providers, registered and license practical nurses, medical and nursing students, community health workers, and allied health professionals.

LEARNING OBJECTIVES

At the conclusion of this activity the participants should be able to:

- 1.) Describe the medical history, pathophysiology, and clinical manifestations of sickle cell disease.
- 2.) Explore the relevance and limitations of precision medicine as it relates to sickle cell disease.
- 3.) Describe the potential curative therapeutic approaches in the management of sickle cell disease.
- 4.) Discuss the new and emerging medical therapies for the management of sickle cell disease.
- 5.) Identify evidence-based age-appropriate nursing strategies for the management of the adult and pediatric patient with sickle cell disease.
